The image shows a screenshot of a code editor window with a dark theme. The editor has several tabs open: 'login.html', 'main.java', 'ibm1.html', '# ibm1.css' (which is the active tab), and 'message.html'. The active tab displays CSS code for a web page layout. The code includes styles for a list, a navigation menu, a section, a blog post, and a footer. The code is as follows:

```
13     list-style: none;
14     text-align: center;
15     background-color: #444;
16 padding: 10px;
17 }
18 nav ul li {
19 display: inline;
20 margin: 10px;
21 }
22 a {
23 text-decoration: none;
24 color: #fff;
25 }
26 section {
27 padding: 20px;
28 margin: 20px;
29 border: 1px solid #ddd;
30 }
31 .blog-post {
32 margin: 20px;
33 }
34 footer {
35 background-color: #333;
36 color: #fff;
37 text-align: center;
38 padding: 10px;
39 }
```

The editor's status bar at the bottom shows 'Ln 5, Col 159', 'Spaces: 4', 'UTF-8', 'CRLF', 'CSS', and 'Go Live'. The Windows taskbar is visible at the very bottom, showing the search bar, task view button, and several application icons. The system tray on the right shows the temperature (28°C), weather (Haze), and the date and time (22:56, 24-10-2023).
